

A look at Priority One's NEW da Vinci® Robotic Endoscope exchange program

da Vinci® **Repair Exchange** *Program*

One of the greatest customer benefits of utilizing the Priority One da Vinci® Repair Exchange Program is the savings of 50% or more over the O.E.M repair exchange cost.

The advanced technology used in creating the da Vinci® robotic product line requires equally advanced skills and technology when a repair is needed. The Priority One Rigid Repair Department is recognized as one of the most qualified authorities in the rigid endoscopy repair market today. Priority One utilizes the latest technologies with expert skills, and state-of-the-art testing and repair equipment to ensure the highest quality repairs. As part of the da Vinci® quality control process a target and clarity check is conducted from the physician's own console.

- Complete No-Cost Diagnostic Evaluation
- S Series Capabilities: 311464 0° 12mm, 311465 30° 12mm
- SI Series Capabilities: 370890 0° 12mm, 370891 30° 12mm
